HARROW CHAIR
DESIGN: JONAS LINDVALL
SOLID OAK

At Stolab we have manufactured solid wood chairs in the same premises in Smålandsstenar since 1907. We have as a result a long history and tradition that has given us expertise in how best to manufacture a chair based on our core values of Solid wood, A harmonious blend of form and function, Environmental responsibility and Deliberate simplicity.

Our factory in Smålandsstenar is today a modern furniture manufacturing facility where the latest technology is mixed with craftsmanship and genuine professionalism. We collaborate with leading Scandinavian designers who share our values and our will to design furniture that lasts for generations.

All our chairs are available in white pigmented oil, natural oil, natural lacquer, bright matt lacquer or any of our ten coloured stains.
